[About Kolki](#)

You know that most religions on Earth believe in some form of 'The return of the Messiah' to solve world problems towards peace and coexistence, despite our world being full of scholars, academics, philosophers, philanthropists, scientists, and honest good workers (labourers)! The Evangelical versions are supposed to bring a violent end of the world punishing majority while saving few chosen of a particular faith!

As a born Indian in Brahman (scholarly and priestly) family, I learned about religions from childhood - reading, listening, and watching acts and plays embedded in the day to day arts, culture, and chores! Thus I came to know about the prophecy of the future Messiah Kolki as depicted to Yuddhistira in Mahabharata by sage Markandeya (ca. 3130 BCE):

“Inspired by the supreme spirit, a son will be born in the house of a Brahman. This Brahman boy shall be an extremely powerful, intelligent and valiant personage. ... Collecting a huge army of Brahman warriors (Scholars and Academics) he shall go about setting about righteousness in the world. He shall not only re-establish the rule of dharma but shall also herald the advent of the Golden Age of Satyayuga (Truthful Period on Earth) of the next cycle of time”.

I also came to know about the prophecy of Vishnu's re-incarnation as Kolki Avatar (Fig.1) riding a white horse and wilding a flaming sword fighting against evil like a military commander, etc. to re-establish order and peace on Earth - as depicted in Vishnu Puran (9th Century AD).

Fig. 1 Kolki Avatar in Vishnu Puran (9th Century AD) as warrior unlike Brahman (Scholarly) as predicted in Mahabharata

It should be noted^[1] that the earliest archaeological evidence of Vishnu being worshiped as God possessing Kshatriya arms can be traced to 4th Century AD, during Gupta empire and onwards, whereas the non-violent Buddha and wise loving Shiva can be traced back to Harappa days! Thus it won't be too imaginative to link the concept of non-Brahman Kolki in Vishnu Purana (9th Century AD) and New Testament's violent second coming of King Jesus Christ bearing similarities!

The Christian prophecy is very similar: 'Messiah coming through the clouds on a white horse wilding flaming sword etc.', which is equated to second coming of [Jesus Christ](#) though resemble more like Alexander or Caesar - as military commander or the Knight of the Crusades.

"Behold, He is coming with the clouds....."

Revelation 1:7

(King James Bible 1611 AD)

Fig. 2 Second coming of Christ as warrior unlike loving Jesus of Nazareth

Christ is depicted with clothes stained red with blood because He would kill all the people who would oppose Him. It is the final battle in which He would overcome the forces of evil in order for the Kingdom of God to be established on this earth.

Revelation 19:14

And the armies which are in heaven, clothed in fine linen, white and clean, were following Him on white horses.

In Islamic traditions, that saviour is known by the name of "al-Mahdi". According to the unanimously accepted saying of the Prophet Muhammad, God will bring about a saviour before the end of time to establish the global domination of Islam over all religions. In other words, the saviour will establish the Kingdom of God on this earth resembling Evangelical Christian like wisdom. But the establishment of God's Kingdom on earth at the hand of the righteous people has been clearly mentioned in the holy Qur'ān: "We would like to bestow a favour upon those who have been oppressed in the earth and make them leaders and make them inheritors (of the world)." (The Qur'ān 28:5)

Messianic Hebrews proclaim their conviction that Y'shua HaMashiach (the Messiah) is the redeemer prophesied in the Tanakh ("Old" Testament); and that He is the Messiah for whom all the tribes of Israel (both the House of Israel and the House of Judah) and the "mixed-multitude" - of non-Israelites, worldwide, and throughout history have been waiting.

Although Messiah has been depicted by prophets as a universal loving and caring personality, in early history including prophet Muhammad, the interpretations of future Messiah gradually transformed into Warrior mode resembling princely class with the advent of Vishnu Puran in 9th Century AD and similar texts around the world from that time onwards. Thus the coming of the future Messiah somehow justified the ongoing wars and killings for supremacy which their anticipated Messiah would aid to accelerate as a grand finale (Armageddon, Judgement Day, etc.)!

Messiah doesn't come to the world to be a King or establish Kingdom of God! Messiah evolves on Earth learning, listening, observing, and realizing built-in injustices around to implement truthful trivial solutions to problems stuck in status quo of serving few with Monarchist views depriving/misguiding honest sincere masses glorifying God(s) which resemble as the leader(s) of those few.

Bombers in the form of fiery Angeles, rockets, missiles, lightning, meteors, and asteroids can come through the clouds, but Messiah evolves from the masses with universal realizations to speak for everyone's rights, responsibilities, and general well being much needed for peaceful coexistence - the fertile ground for united forward evolution culturally, ideologically as well as theologically.

I left India in 1978 and have been living in the West since then occasionally visiting family and friends in India. I always wondered about the very root cause of world problems including hunger, homelessness, and infighting despite global general good will towards fellow feelings. So I studied history and religions in my spare time from different sources with an open mind to assimilate more or less logical gist filtering biased interpretations of many scholars and theologians! What I realized after my long stay in the West (North America) and voluntary study that most local problems are global in nature in disguise having root cause often in the Western structure of colonization and domination in some pretexts including non-trivial Evangelism and Militarism!

With absolute faith on our free media and political institutions I used to write with sincerity to politicians and media besides carrying on with my profession as an Engineer, but most often my messages fell in deaf ears without response and/or recognition.

As part of daily chores I rushed to meetings, attended lunch and dinners, shopped, watched movies and concerts avoiding beggars, homeless, and petty crimes in the street many times as well as watching/reading mindless wars, famine, and diseases in many parts of the world. But eventually it appeared that the main difference is the dress with tie/bow tie and being instruments of making a group of people very rich fast! For the first time I really felt bad to enjoy good food without offering a bite to people who need it most or seeing homeless suffer in the street of most prosperous as well as poor nations! I also

watched how casually media and lawmakers accept day to day gun violence and homicides without addressing the causes!

I watched silently how privatism and privacy led to a virtual power Holy See (the Monarchical Alliance behind the walls of Vatican) take over the world using United Nations empowered by secretive financial institutions, think tanks like Bilderberg, aristocratic covert intelligence and their media Mughals - with creative propaganda against Governments (we the people) and separation of Church & State.

I waited, saw many have been waiting, for prophesized Messiah to come and fix world problems as new Elections brought new Presidents, Prime Ministers, New UN Secretary, New Pope, new lies, new wars, new financial crash, new despairs... and waited.... and waited! Realized how on-stage Messiahs resemble military commanders like Alexander, Caesar, Hitler and George W. Bush Jr., in absence of true Messiah!

Hellenistic war culture has been embedded throughout the world with Alexandrian (Dorian) invasions and dominations rewriting history and religion for glorifications & praises for Kings and Lords! This is also obvious in our justice and parliamentary procedures separating general mass from deified judges and politicians, who are most often nothing more than ordinary citizens!

Then I realized if Messiah has to fight against the colonial power possessing Nuclear Bombs & missiles, and many authoritarian ill-conceived corporations, the only viable deterrent is the "Pen" which has proven mightier than sword many times in history uniting the scholarly (Brahman) world against the evangelical war mongering ideologies.

alone.

So I quit my job, sold house in San Francisco, bade good-bye to good friends and settled in Victoria, British Columbia, Canada, an Island City in the West coast of Canada, and started writing & campaigning building a contact database of world leaders (head of states), United Nations members, academicians, politicians, journalists, friends and various religious groups. I exhausted all my savings, corporate pension, and spent most of my time writing and campaigning as Kolki while maintaining daily chores at the University of Victoria and caring for my human and lovebird family - mostly staying and doing everything

Worldwide peace and universal well being became my personal issue since without peace all academic, scholarly, technological and political good will become meaningless as military & covert intelligence kill and displace able bodied people and family as collateral damages including own citizens!

Later I found that the name "Kolki" is also popular in Poland, Russia, Ukraine, and Germany - as Kolki (Yiddish), Kolk (German) and Kolke (Hungarian).

So, in short, I took the name of Kolki as a scholar (Brahman) for my contribution towards uniting the world, in a scholarly way against ongoing discriminations, wars, and related violence & sufferings so that people can live a better life economically, culturally, and philosophically respecting environment, one's own religion and rights of others.

God bless our world. Let us march on singing with universal gospels -

‘Blessed are the peacemakers’
‘Blessed are the truth seekers’
‘Blessed are the ones who rise above fear’
‘Blessed help create an egalitarian world’!

When religions coexist, leaders communicate, media respect neutrality, laws not blinded by immunity, and citizens' needs take precedence over profitability - peace becomes reality, world lives in harmony appreciating Human Rights - Kolki

It's a fight for Truth & justice against Lies & injustice which is the law of causation! This is a decisive moment in history and all humans must strive to fight for truth with their Heavenly power inside so that they can live Heavenly life on Earth with peaceful possessions and truthful vocations!
